Abstract of Project

- Coffee shop website helps in ordering coffee from our home in advance without any rush.
- Coffee shop website also includes ordering the coffee of our liking directly to our home.
- Coffee shop website helps the consumers by getting them instant discounts while ordering from the website.
- Coffee shop website allows user to save their time and money by offering various different features.
- Coffee shop website also provides the best customer service by providing all the features at their fingertips.
- People have to no longer wait in the queue for their coffee.

Project Summary

Project title- Coffee shop Website

Coffee shop website is a website which helps coffee consumers to directly order coffee from their home by simply just placing their order on this website.

There are several advantages to using coffee shop website -

- Users don't have to visit the store, they can order coffee anywhere like their home or their office.
- Users don't have to wait in queue to place their order in the store, they can just place the order from website and go and pickup from the store.
- This website also attracts users as it also does the job of advertisement.
- Users can pay for their order by online payment modes such as credit or debit cards.
- Coffee shop owner can also earn profits from the traffic on its website.
- User will be able to apply discount codes introduced by coffee shop from time to time.
- This will also reduce the electricity cost and other expenses.

Objectives

- To provide a friendly, comfortable user interface where the customer can receive quality food and service.
- To offer discount coupons from time to time to help the customers save their money.
- Having a website for your restaurant gives you the opportunity to expand your audience even further.
- With a website, you control your brand. The look, the feel, and the information on your website is all your own. Social media is great for your business, but having your own website gives you a lot more control
- Reviews are another way to widely promote your business.
- Anyone can find your cafe on Google Maps once it's listed, and they can write reviews
- In online shopping, consumers get many options for mode of payments. Website gives them the option of online payment through debit or credit cards.

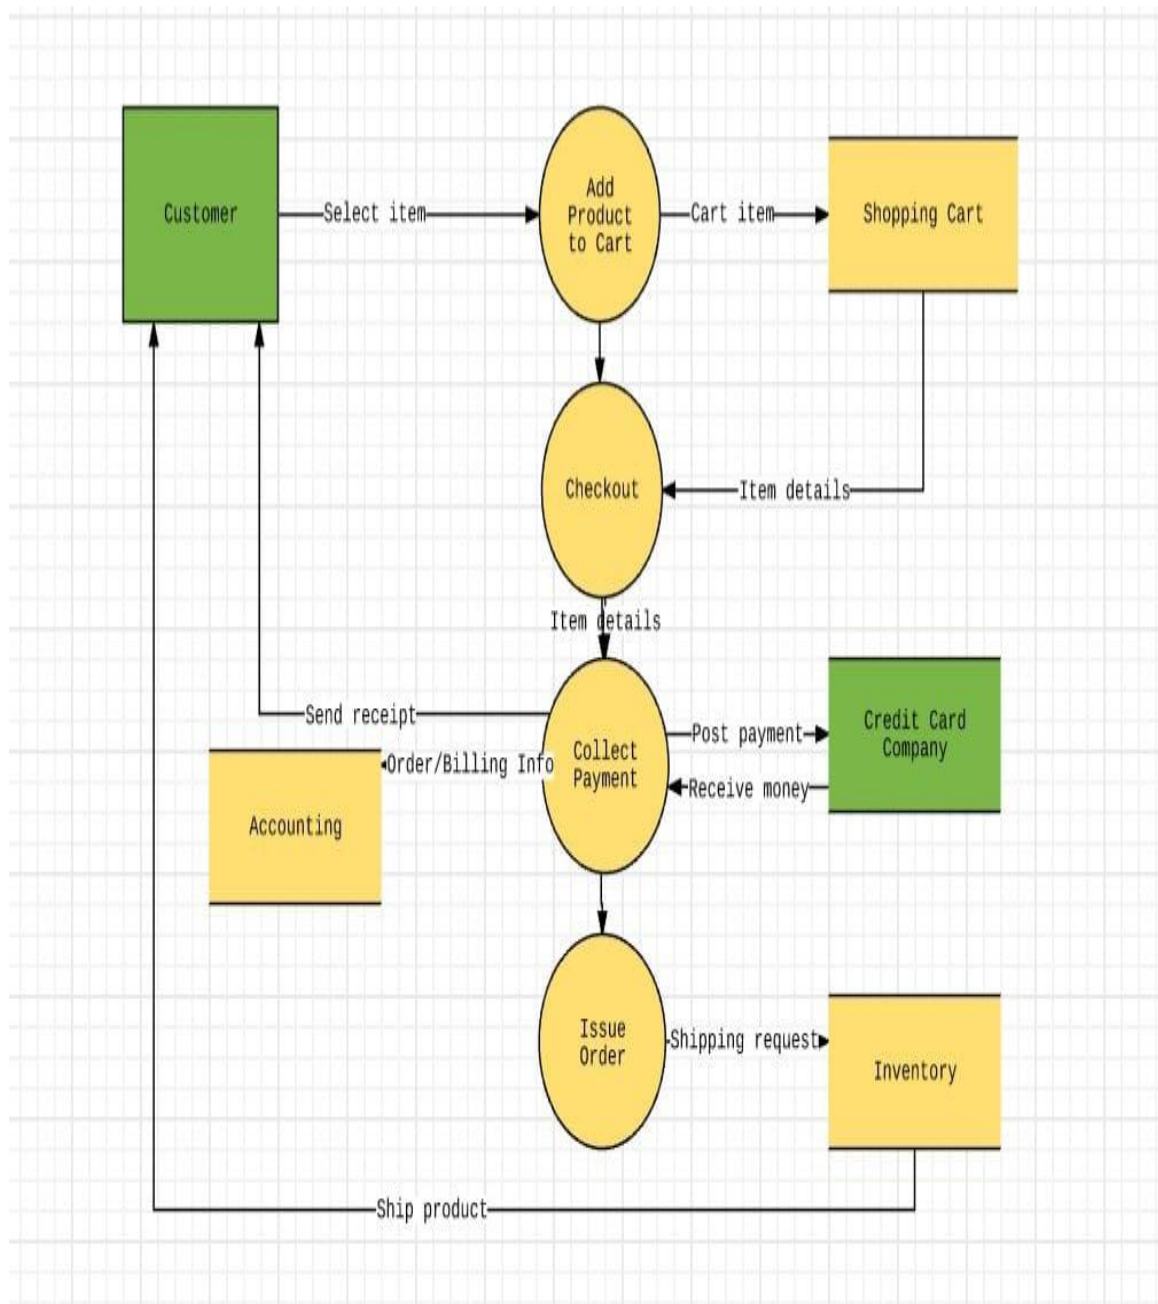

DETAILS OF PROJECTS

- It is a type of website which is used to help order their coffee from wherever they want and whenever they want.
- First step is to create the html file to create the basic structure of the website and the overall interface.
- Second step is to create the css (cascading style sheets) file to implement graphics and font styles in our website.

System Requirement Used

- MacOS Big Sur
- HTML5
- CSS3
- JS
- Sublime Text
- Google Chrome
